

Texas Organizations Statement on January 6th Sedition

On January 6th, 2021, a violent mob of extremists motivated by conspiracies that were sowed by the White House stormed into the Capitol, forcing legislators and their staff to barricade with the protection of armed guards. After hearing an address with yet more incendiary rhetoric from the outgoing president, they forced their way inside the Capitol building, carried a Confederate flag through the rotunda, and threatened lawmakers and our seat of government in Washington DC.

Anyone involved in inspiring, encouraging, and abetting these terrorists must be held responsible for their actions. Unfortunately, they have been enabled by a large cross section of extremist politicians, many of whom represent Texans. They have made a mockery of democracy by embracing the fascist rhetoric of a far-right figurehead with a far-right movement behind him. They have suppressed votes while lying about the nature of our election system, sullyng our elections while opposing their legally legitimate losses. They have proven themselves entirely unfit for office.

They must resign.

Organizations around the State of Texas hereby call for the resignation of the Texas politicians complicit in the actions on January 6th, 2021:

Senator Ted Cruz
Attorney General Ken Paxton
Representative Jody Arrington
Representative Brian Babin
Representative Michael C. Burgess
Representative John R. Carter
Representative Michael Cloud
Representative Pat Fallon
Representative Louie Gohmert

Representative Lance Gooden
Representative Ronny Jackson
Representative Troy Nehls
Representative August Pfluger
Representative Pete Sessions
Representative Beth Van Duyne
Representative Randy Weber
Representative Roger Williams
Representative Ron Wright

Additionally, we support the resolution of Representative Cori Bush to expel the seditious members of Congress attempting to undermine the legitimacy of our democratic election results, and call for the immediate invocation of the 25th Amendment to remove our aspiring dictator from the Oval Office.

We believe in the power of democracy and the power of the People to make progress in the United States. Those who have proven that they would prefer to destroy the country rather than hold Trump accountable must surrender their power permanently. Their power is vested in us and they have shown themselves willing to use it abusively.

In the name of democracy,
